

# Modeling Decimal by Decimal Division

## Step by Step

$$1.8 \div .3 = \underline{\hspace{2cm}}$$

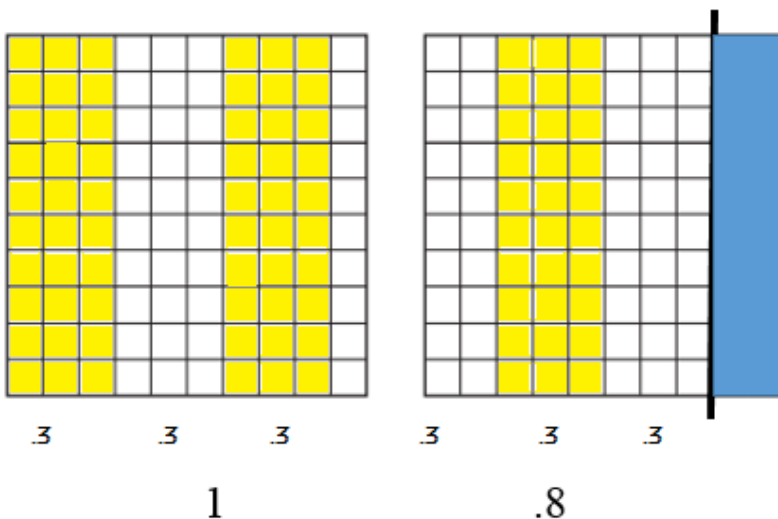

Step 1:

Mark off  
1.8 on the  
grids

Step 2:

Shade  
groups of  
.3

Step 3: Count the number of 3 tenths groups that appear

.3 appears 6 times    **SO**     $1.8 \div .3 = \underline{\mathbf{6}}$
